## We set out to build a better way to invest.

Real estate has historically been one of the best-  
performing investment assets and a core part of many  
of the most successful investor portfolios.

But investing in real estate (the way institutions do)  
traditionally hasn't been available to most investors  
without either meeting high net worth requirements or  
going through a complex and inefficient process,  
riddled with high fees and outdated misdirection.

We started with a simple idea: to use technology to make high-quality real estate investments  
available to everyone at a low cost.

In the beginning, we faced our fair share of skeptics, especially within the institutional  
investment industry. They said our idea wasn't possible. Turns out, they were wrong.

Since launching our first offering in 2012, we've invested in more than \$4 billion worth of real  
estate across the country. Today, we manage more than \$1 billion of equity on behalf of more  
than 170,000 individual investors.

**Our goal is to build a better financial system for the  
individual investor — one that is simpler, more reliable,  
lower cost and transparent.**

**Open an account with as little as \$10.**

Although our business and the technology we build have continued to evolve, our mission has  
always remained the same: to empower the individual investor. That's why we obsess over  
things like cost efficiency, minimizing fees, frequent candid communication, and developing  
smarter tools that provide better insights.

Perhaps the clearest manifestation of this investor-first approach is the fact that we're investor-  
owned, allowing real estate portfolios to become fellow shareholders of the company itself  
through our unique IPO model. This lets us minimize our dependency on outside capital and  
better align our long-term interests with the long-term interests of our investors — in short,  
making our success their success.

Almost a decade later, we're still just getting started. Welcome to the future of real estate  
investing. You can open an account for as little as \$10.

## GROUND FLOOR INVESTING

Ground Floor is a unique financial product for individual  
investors that allows non-accredited and accredited  
investors alike to participate directly in real estate  
investment loans on a fractional basis. We open the door to  
short-term, high-yield returns  
backed by real estate. Typical  
loans have returned 10%  
annually on a 3 to 12-month  
term. You pick your  
terms! You can open an  
account for as little as \$10.  
These are actually like mini  
CDs if you think about it.

The product is based on venture loans to real estate  
entrepreneurs, originated and serviced by Ground Floor.  
Prior to the offering, every loan is pre-funded by Ground  
Floor after a thorough vetting of the borrower's experience,  
creditworthiness, and business plan, plus an assessment of  
the property value on an as-is and as-improved basis.

Founded in 2013 by Brian Dally and Nick Bhargava, Ground  
floor is headquartered in Atlanta, Georgia with a fast-  
growing team on a mission to take private lending public.

# You Can Spend \$10 to Buy an Apartment Building

Take a look at some of the world's wealthiest people. What do they have in common? Many invest in large private real estate deals. And here's the thing: There's no reason you can't, too — for as little as \$10.

A company called Fundrise lets you get started in the world of real estate by giving you access to a low-cost, diversified portfolio of private real estate. The best part? You don't have to be the landlord. Fundrise does all the heavy lifting.

Fundrise's Starter Portfolio has a minimum of only \$10 and is geared toward first-time real estate investors. Your money will be invested in the company's Flagship Fund, which already owns more than \$250 million worth of real estate around the country, from apartment complexes to the red-hot housing rental market to larger last-mile e-commerce logistics centers.

As tenants pay their rent, you could earn money through quarterly dividend payments, and over time, you could earn money off the potential appreciation of the property. Since 2014, Fundrise investors have earned roughly \$100 million in dividends alone.

So if you want to get started in the world of real estate investing, it takes just a few minutes to sign up and create an account with us.
